-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

- 1) ☒ Responsive to communication(s) filed on 29 August 2006.
- 2a) ☒ This action is **FINAL**. 2b) ☐ This action is non-final.
- 3) ☐ Since this application is in condition for allowance except for formal matters, prosecution as to the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

DETAILED ACTION

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless -

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 16-30 are rejected under 35 U.S.C. 102(b) as being anticipated by Casey et al (WO 01/68962 A2) for the reasons of record.

Claim Rejections - 35 USC § 103

3. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negatived by the manner in which the invention was made.

4. This application currently names joint inventors. In considering patentability of the claims under 35 U.S.C. 103(a), the examiner presumes that the subject matter of the various claims was commonly owned at the time any inventions covered therein were made absent any evidence to the contrary.

Art Unit: 1732

Applicant is advised of the obligation under 37 CFR 1.56 to point out the inventor and invention dates of each claim that was not commonly owned at the time a later invention was made in order for the examiner to consider the applicability of 35 U.S.C. 103(c) and potential 35 U.S.C. 102(e), (f) or (g) prior art under 35 U.S.C. 103(a).

5. Claims 16-30 are rejected under 35 U.S.C. 103(a) as being unpatentable over Casey et al (WO 01/68962 A2) for the reasons of record.

6. Claims 1-15 are rejected under 35 U.S.C. 103(a) as being unpatentable over Casey et al (WO 01/68962 A2) as applied to claims 16-30 above, and further in view of Hernandez et al (U.S. Patent Application Publication 2002/0071951 A1) for the reasons of record.

Response to Arguments

7. Applicant's arguments filed on 29 August 2006 have been fully considered but they are not persuasive.

8. Applicant argues that Casey et al does not disclose that the second drawing stage be conducted under wet conditions. Examiner responds that Casey et al does disclose this at page 12, lines 12-23 (wherein the first stage drawing takes place in heated water, the second stage drawing takes place at a higher temperature and PTT will not turn harsh in heated draw baths).

Art Unit: 1732

9. Applicant argues that no combination of Casey et al with Hernandez et al adds up to the presently claimed invention. Examiner responds that Hernandez et al is cited for its teaching of PTT fibers having a dpf as instantly-claimed and that this combination of references meets the limitations set forth in instant claims 1-15. Furthermore, the references are combinable as both references are directed to the manufacture of PTT fibers and the proposed modification of Casey et al by Hernandez et al does not render Casey et al unsatisfactory for its intended purpose or change the principle of operation of Casey et al.

Conclusion

10. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event,

Art Unit: 1732

however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
